P. O. Box 1047
Easton, MD 21601

Dear Mr. McClure and Mr. McLaughlin:

**SLIC: 425 TENNANT AVENUE, MORGAN HILL; REQUEST TO STOP
UNINTERRUPTED WATER SERVICE, WELLS WITH 4 CONSECUTIVE QUARTERS
OF LESS THAN 4 PPB**

Regional Board staff reviewed your request to cease uninterrupted water service to 145 wells containing perchlorate concentrations below 4 parts per billion (ppb). Olin forwarded this request in a July 7, 2004 letter that included a minimum of four quarters (one year) of sample results for each well. Cleanup or Abatement Order R4-2004-0101 (CAO R4-2004-0101), Ordering paragraph 2, allows Olin to cease uninterrupted water service to residences with wells that are below 4 ppb for four consecutive quarters with Executive Officer concurrence. Based upon the my review, these 145 wells meet the criteria for cessation of uninterrupted water service, as allowed by CAO R4-2004-0101.

As a reminder, CAO R4-2004-0101 requires the Discharger to monitor these 145 wells during the next three years. For the first year, these 145 wells shall be monitored semi-annually. If perchlorate is still not detected at concentrations 4 ppb or greater, then the 145 wells will be monitored annually for two additional years. At the end of this three-year period Olin may cease sampling with the Executive Officer's concurrence. If perchlorate is detected at or above 4 ppb at any time, the Discharger shall provide uninterrupted water service in accordance with CAO R4-2004-0101, Ordering Paragraph 1.

If you have any questions, please contact **David Athey at (805) 542-4644** or Eric Gobler at (805) 549-3467.

Sincerely,

Roger W. Briggs
